

Reference

PLEXIGLAS®

Fall arrest system for spiral staircase

Market segment

Home and garden

Product

PLEXIGLAS® XT Clear 0A000, 12mm thick

Location

Liberec, Czech Republic

Fabricator/Designer

Titan-Multiplast s.r.o.

Jablonecka 1379

CZ-46851 Smrzovka

Selection criteria

PLEXIGLAS® was chosen because optical quality played a key role and the material is highly suitable for thermoforming.

Description of application

PLEXIGLAS® was thermoformed and then routed to the desired shape. This type of forming is much easier with PLEXIGLAS® than with safety glass, and the material's perfect transparency makes the fall arrest system almost invisible.
