

The Range in Stock

PLEXIGLAS® XT tubes

are extruded. They are characterized by their optically immaculate, perfectly smooth surface free from striation. PLEXIGLAS® XT tubes are manufactured in Clear, White and Colored. Crystal-clear and white tubes are available in all of the diameters listed opposite (marked by an x).

Extruded tubes are also available in the following grades:

PLEXIGLAS® Satin Ice with a matte velvety surface. Its excellent light diffusion paired with high light transmission predetermines this material for high-class, design-oriented applications in lighting and luminaires. PLEXIGLAS® Satin Ice tubes are offered in clear and in various colors.

PLEXIGLAS RESIST® with greater impact strength. These tubes are particularly suitable for applications that call for very tough materials. They are provided in Clear, White and Colored.

Available in lengths of 2,000 and 4,000 mm

PLEXIGLAS® GS Tubes

These are manufactured by casting. They have high-gloss polished surfaces. PLEXIGLAS® GS tubes are offered in Clear, White and Colored. Crystal-clear tubes are available from stock in all diameters listed below (marked with an x):

PLEXIGLAS® GS Tubes

External diameter	Wall thickness in mm			
	4	5	6	8
300	x	x	x	
457	x	x	x	x
650		x	x	x

Available lengths:
300 mm diameter: 2,100 and 3,100 mm
457 mm diameter: 2,100 mm
650 mm diameter: 2,200 mm

PLEXIGLAS® XT Round Rods

PLEXIGLAS® XT round rods are extruded. They possess optically impeccable, perfectly smooth surfaces free from striation. PLEXIGLAS® XT round rods are manufactured in Clear, White and Colored. Round rods are available from stock in all the diameters listed below:

PLEXIGLAS® XT Round Rods Clear 29070

External diameter	External diameter	External diameter
2	7	20
3	8	25
4	10	30
5	12	40
6	15	50

Available length: 2,000 mm

Extruded round rods are additionally available in the following grades:

PLEXIGLAS® Satin Ice with a matte velvety surface. Its excellent light diffusion paired with high light transmission predetermines this material for high-class, design-oriented applications in lighting and luminaires. PLEXIGLAS® Satin Ice round rods are offered in clear and in various colors.

PLEXIGLAS RESIST® with greater impact strength. These rods are particularly suitable for applications that call for very tough materials. They are provided in Clear, White and Colored.

PLEXIGLAS® EndLighten is a light-diffusing transparent grade of acrylic (PMMA) with special light-guiding behavior. PLEXIGLAS® EndLighten rods available from stock in 20 mm diameter, further diameters on request

PLEXIGLAS® GS Square and Round Rods

Square and Round rods are manufactured by casting. They have a high-gloss polished surface, and are offered in Clear, White and Colored. Crystal-clear rods are available from stock in all the diameters listed below:

PLEXIGLAS® GS Round Rods Clear

External diameter	External diameter	External diameter	External diameter
15	25	50	90
18	30	60	100
20	35	70	
	40	80	

Available length: 2,000 mm

PLEXIGLAS® GS Square Rods Clear

Thickness/width in mm	Thickness/width in mm
20/20	40/40
30/30	50/50

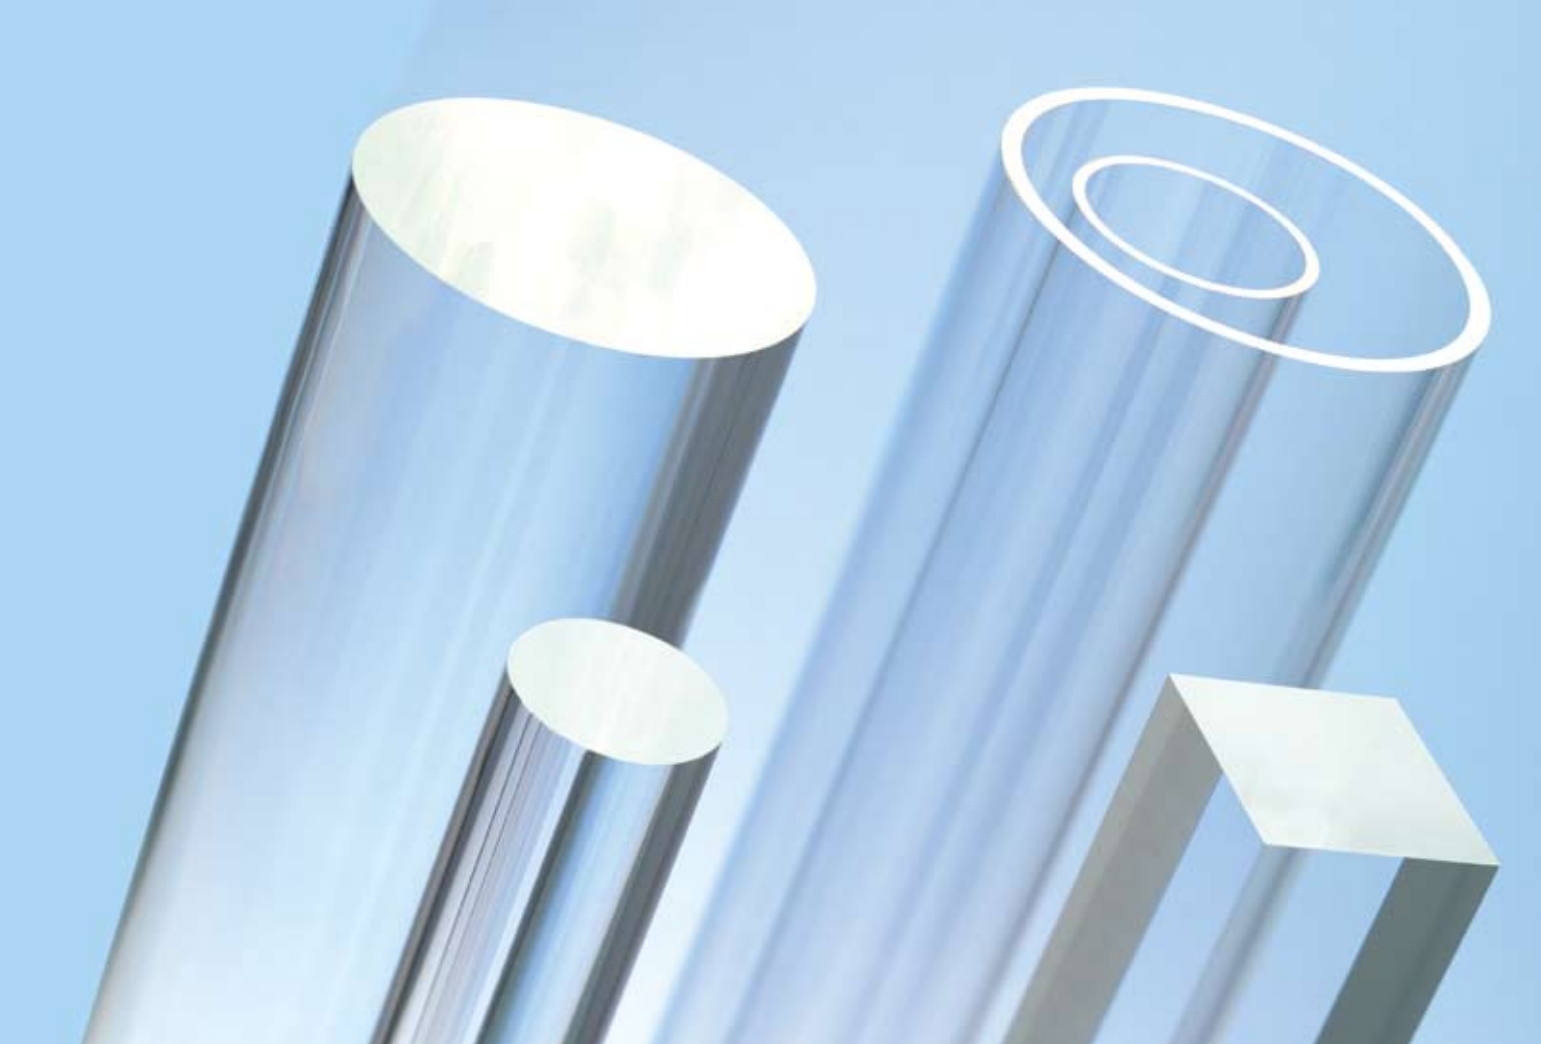

Available length: 2,000 mm

Additionally manufactured to order:

Tubes and rods in special sizes and colors (e.g. corporate identity colors) or with special properties, such as a high heat deflection temperature under load.

Another option are PLEXIGLAS® Satin Ice tubes and rods with greater impact strength. Grades mentioned above as being available from stock can be supplied at short notice. On request, we will be pleased to tell you the corresponding terms and periods of delivery for all other grades.
